Summary of the activity:

Under the AICTE Activity Programme's activity, I went to a rural village and then done an activity in spreading awareness to people in rural area about importance of Sanitation and Hygiene then cleaned premises.

On [14/07/2023], my journey to the village of Pakkeripalle unfolded as a transformative experience, chronicled here for reflection. Commencing the day with educational sessions, I had the privilege of sharing insights on sanitation and hygiene, witnessing the eager absorption of knowledge by the villagers. Transitioning seamlessly to organizing lively cleaning activities, we not only tidied up the village but also fostered a spirit of teamwork and pride that resonated throughout the community.

Recognizing the vital connection between a clean environment and overall well-being, we dedicated time to cleaning the village surroundings, instilling a sense of pride and ownership among the villagers. The impact of the initial day inspired me to extend my commitment for an additional two weeks. During this period, I engaged the villagers in daily educational sessions covering a spectrum of topics, from sanitation practices to essential hygiene habits.

The enthusiasm of the villagers was palpable, creating an atmosphere of shared growth and mutual learning. As I reflect on this journey, I am struck by the profound effect of community engagement. Beyond the positive influence on the villagers of Pakkeripalle, the experience has left an indelible mark on my own perspective, reinforcing the transformative power of giving back.
